ALVA'S INSTITUTE OF ENGINEERING & TECHNOLOGY

DEPARTMENT OF INFORMATION SCIENCE & ENGINEERING

About the Department

Department of Information Science and Engineering was established in the year 2008 with an intake of 60 for the undergraduate program. The department has well qualified, experienced and committed faculty to provide quality industry tuned education to the students. Department has well equipped laboratories housing state of the art equipments including computer systems with latest configurations, which are completely networked and latest software's for applications and development areas. The Department carries out various Industry-Institute interaction events for the benefit of the students and faculty. The Department conducts various technical Seminars/hands-on session Workshops/Certification programs and Hackathons for students to enhance their skill and to bridge the gap between curriculum and industrial requirements. Department organizes various placement activities for students to enrich their coding skill and professional behavior. With an objective of developing core competence in the respective subject specializations and for learning new technologies, the Department has formed the various Technical divisions. We are committed to developing passionate, committed, ambitious and focused efforts on students to bring about the best in them.

Vision & Mission

3

VISION

To Impart quality learning and nurture students to become successful technocrats by achieving excellence in information science and engineering field for addressing the evolving needs of the industry as well as the society.

MISSION

- ◆M1: To provide quality technical education and research training for preparing competent professionals in the Information technology field.
- ◆M2: To provide a suitable infrastructure and environment that inculcates the best engineering practices for the Socio-economic development of society.
- ◆M3: To foster the students to become successful technocrats to meet the global competency in the field of IT industry.
- ◆M4: To develop entrepreneurship skills with active research and innovation by inculcating ethical values among students.

Program Educational Objectives (PEOs)

4

- ❖ **PEO1:** Apply the principles of fundamental mathematics and Information Science & engineering to provide solutions to the real time problems.
- ❖ **PEO2:** Pursue higher education and engage in research to meet the challenges of the latest technologies.
- ❖ **PEO3:** Design and develop reliable software systems to satisfy the industrial needs through multidisciplinary projects.
- ❖ **PEO4:** Able to work in various IT related fields and contribute to the society.

Program Specific Outcomes (PSOs)

5

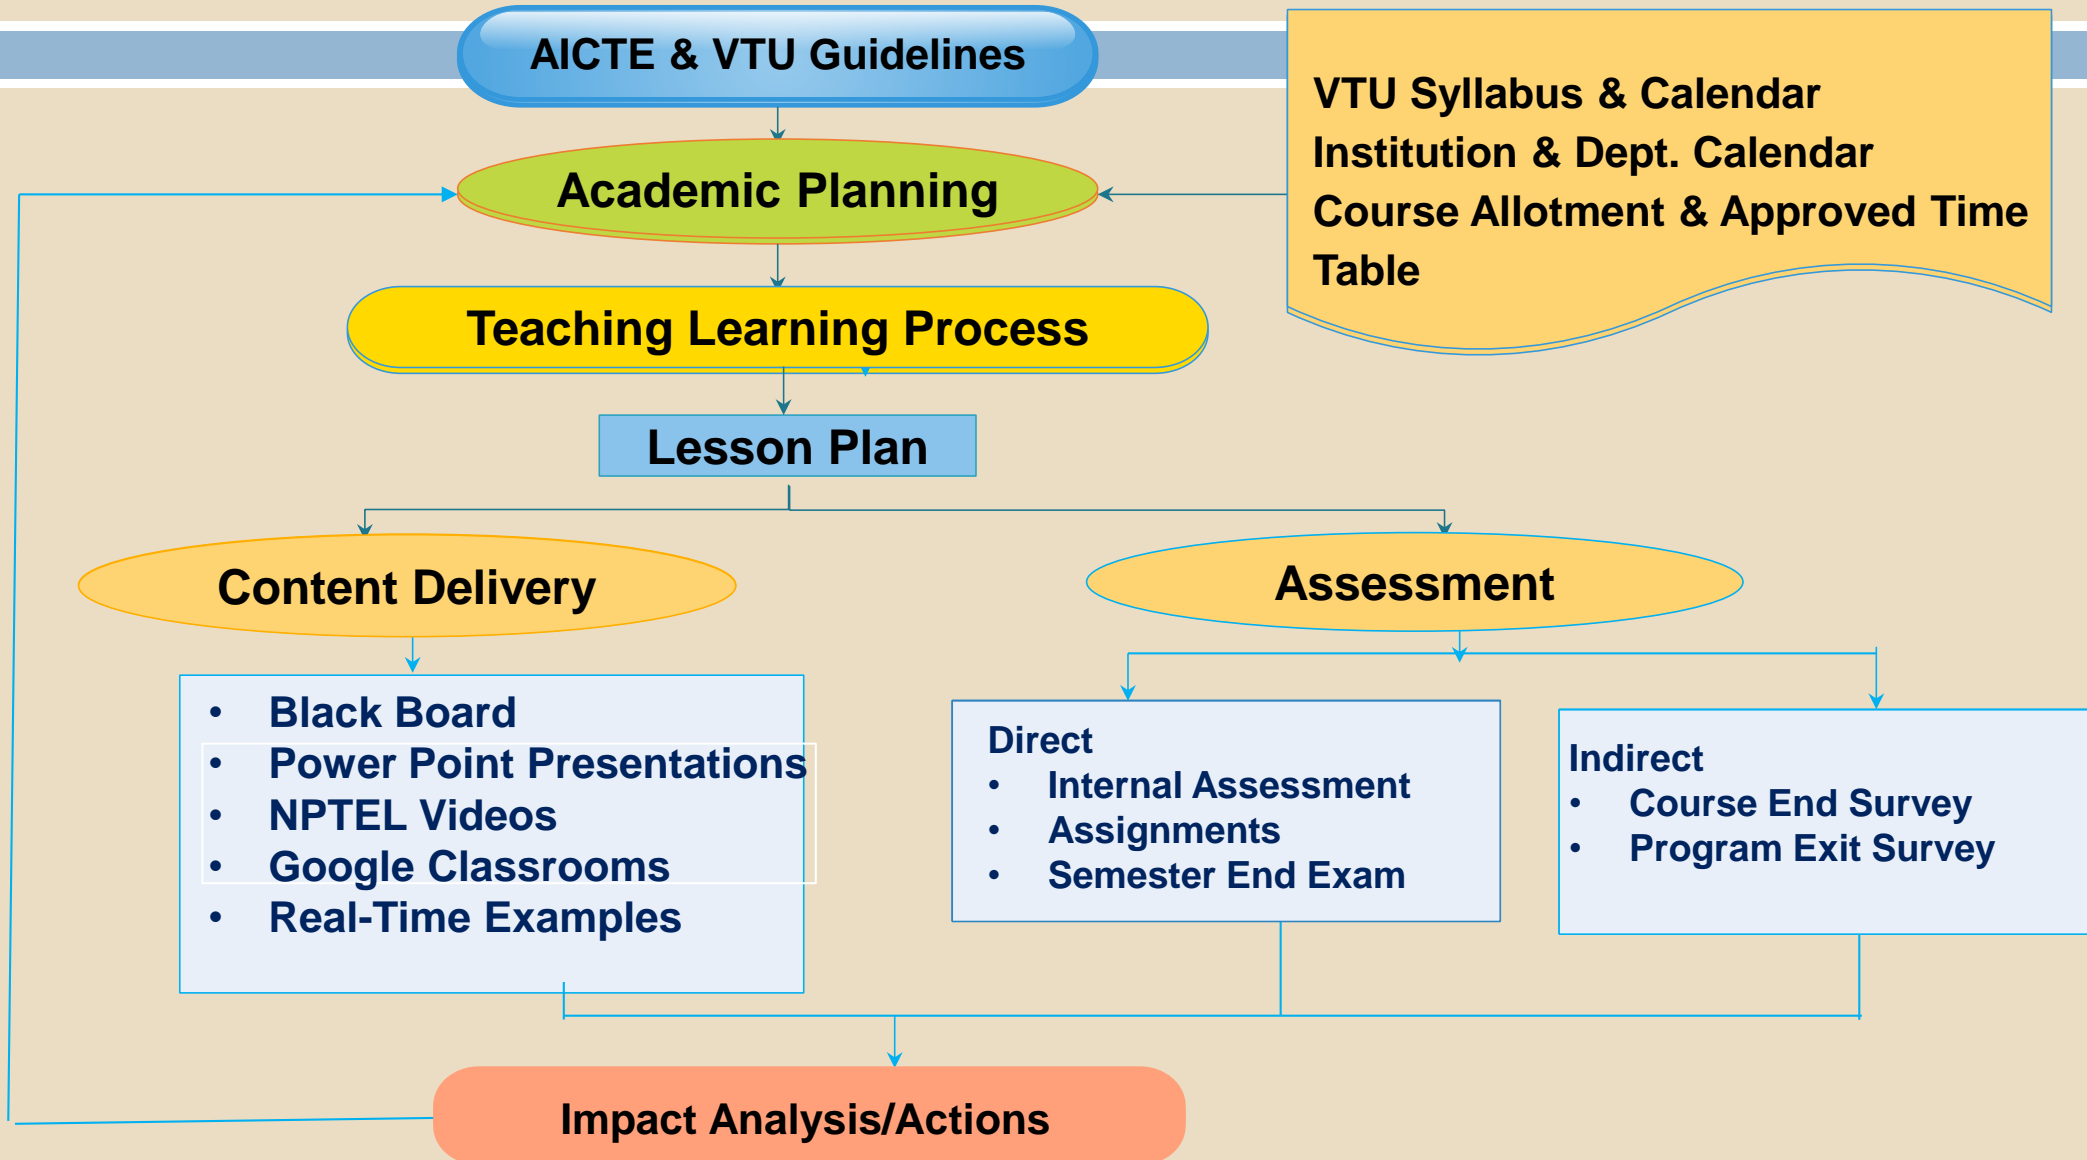

Program Specific Outcomes

- ❖ **PSO1:** Apply the knowledge of computer networking, database and computations to provide the solutions to the real-world engineering problems.
- ❖ **PSO2:** Design, develop, test and maintain the software systems that satisfy the needs of the IT industry.
- ❖ **PSO3:** Develop programs and projects using modern software tools for industrial & scientific applications.

ACTION PLANS

Technical Talks

Certification / Add-on Programs

Industrial Visits

Workshops

Internships

Pre-placement Trainings

Mini Projects

Correspondence to BOS - VTU

Action Plans Executed for Curriculum Gaps

9

Technical Talks

- Experts from Industry, Academia and Research Organizations
- IITs, ISRO, NITKs, HCL, Infosys, Amazon etc.

Mini Projects

- Application Developments using DBMS
- Web Technologies & Applications
- Mobile Application Developments using Android/iOS

Industrial Visits

- ISRO HQ Bengaluru (2 Visits)
- WIPRO Limited, Cochin
- Hindustan Aeronautic Limited(HAL), Bengaluru (2 Visits)
- INFOSYS Global Campus, Mysuru
- Udupi Power Corporation Limited(UPCL), Udupi
- Kaiga Nuclear Plant, Karwar

Action Plans Executed for Curriculum Gaps

10

Technical Talk on Machine Learning

Technical Talk on Industrial Automation

Action Plans Executed for Curriculum Gaps

12

Industrial Visit to Wipro Ltd., Kochin

Action Plans Executed for Curriculum Gaps

13

Technical Talk on IoT

Internship @ IIIT, Allahabad

Workshops / SDPs

- Android Application Development
- Nanotechnology and it's Applications
- Machine Learning
- ReactJS
- Probability and Statistics for Data Science
- How to be a Freelance Web Developer
- Introduction to Devops and Data Engineering in Big data
- Coding Skills
- HTML, PHP and DATABASE
- Data Analytics with Spark

Pre-Placement Trainings

- Advanced Java, Angular JS
- Web Development using HTML, CSS and PHP with Mini-project
- Software Testing and Automation
- Java Full Stack Development
- Python Full stack Development
- Database Management using SQL
- IoT and It's Applications
- Data Structures and Algorithms using C

Add-on
Programs

Advanced & Slow Learners

18

Slow learners

- Additional coaching classes / tutorials are conducted to improve the performance
- Weak students are attached to bright students in collaborative learning
- Mentoring / counseling weak students
- Parents' Interaction
- Forum Member

Advanced learners

- Encouraged to participate in paper presentations, technical contests, project exhibitions, as a group leader for collaborative activity
- Class Representatives
- Forum Coordinators

VGST Funded Project

19

Funding Project Received to the Department

- Department received funding project from VGST, Government of Karnataka, worth of Rs 5 Lakhs under the guidance of **Dr. Roopalakshmi R** , for the title “***Detection of Artificially Ripened Fruits using Spectrometric Techniques***”.

Department Achievements

27

- Received VGST funding of Rupees 5.0 Lakhs.
- 6 student Projects are funded by KSCST
- Two student projects were funded by VTU
- A student project was selected for KSCST state level exhibition
- More than 165 students paper were published in International conferences and Journals
- A student developed an application for real time monitoring of the Automatic Weather Station (AWS) in ISRO-RRSC, Bengaluru, South Campus
- A faculty received NPTEL Gold + Topper certificate

ISRO-Bhuvan Panchayats Asset Mapping- Mangalore Taluk in Collaboration with ISRO -NRSC

32

AIET students, faculty map 5,000 assets in M'luru taluk

Times News Network

ASSET MAPPING: Vivek Alva, managing trustee, AEF (right), hands over a report of asset mapping to M R Ravi, CEO of DK ZP, in Mangaluru

Mangaluru: A tripartite agreement involving NRSC-Isro, Dakshina Kannada Zilla Panchayat and Alva's Institute of Engineering and Technology (AIET) has seen students of AIET carry out asset mapping of 5,000 assets in Mangaluru taluk. The effort saw 55 faculty and 330 students undertake the mapping work in 25 days after AIET team trained gram panchayat members in 55 GPs in the taluk and panchayat development officers (PDOs) helped them in the endeavour.

With M R Ravi, chief executive officer of DK ZP, responding positively to the proposal from AIET, National Remote Sensing Centre was held on May 3 and 4.

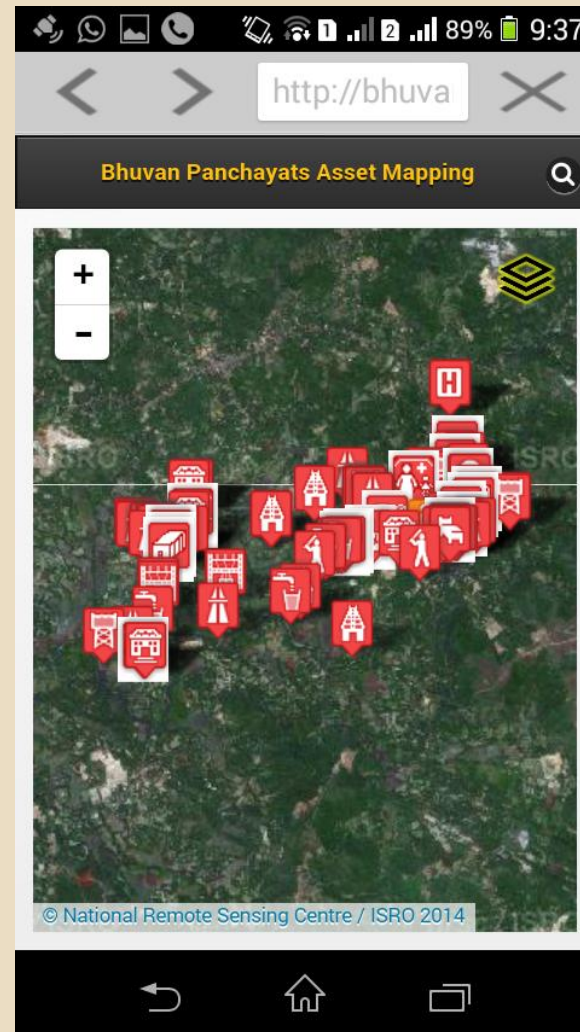

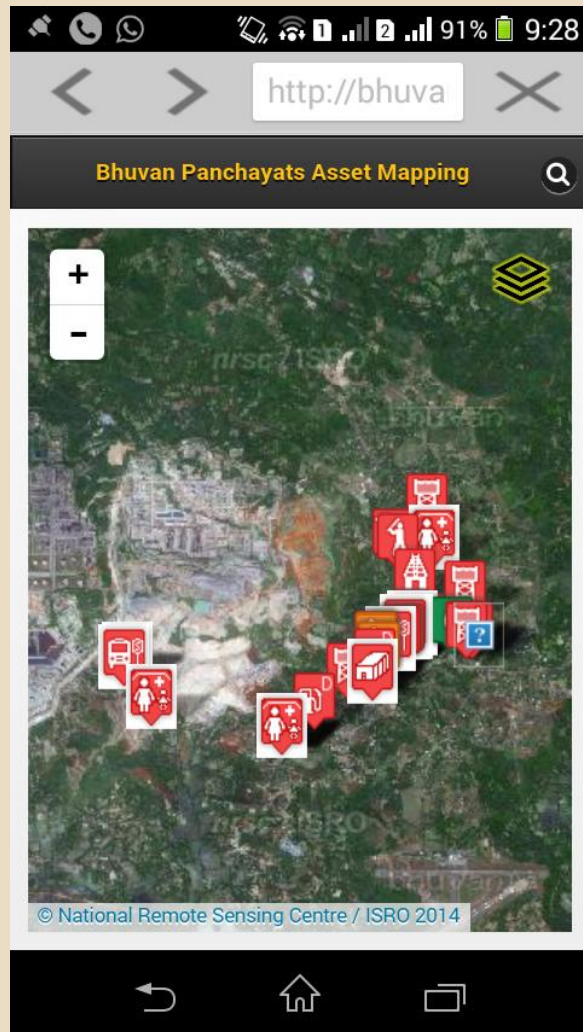

Vivek Alva, managing trustee, Alva's Education Foundation, who handed over the asset mapping report of the taluk to Ravi on Saturday, said that the work was an excellent

pose students to rural India and problems people face in urban areas. Noting that he had personally visited some of the gram panchayats where the asset mapping was going on, Ravi said that the report will help planners like him refix their priorities and work towards filling the critical gaps in local infrastructure. "The report helps the administrators draw critical inferences which can help people at large," he claimed.

Referring to one such inference, he said that the mapping has identified presence of 34 churches, 131 mosques and 374 temples in the taluk. "This is an indicator of the religious harmony
